Optional Data Camp Assignments

- Register for our course on Data Camp at this link, and complete the assignment "Introduction to R":
  `https://www.datacamp.com/groups/shared_links/1d3be5ff1b3117620940f7bb23dbf23504092b51`

- If you:

  - are already comfortable with R, you don't need to do this assignment.

  - would like a review, you are welcome to do this assignment.

  - **haven't seen R before, you should treat this as a required assignment** even though it won't be graded. If you have not used R much/at all yet, this assignment may feel overwhelming. Don't worry, we will talk about this material in more depth in future classes. This is a first pass.
